Dear Mr. Collin:

We have reviewed your response dated December 21, 2012 and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter within ten business days by amending your filing, by providing the requested information, or by advising us when you will provide the requested response. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your filing and the information you provide in response to these comments, we may have additional comments.

## Form 10-K for the year ended December 31, 2011

Item 8. Financial Statements and Supplementary Data

## Note 1: Summary of Significant Accounting Policies, page 54

1. We note your response to comment 1 in our letter dated December 11, 2012. It is our understanding that you are collecting through rates removal and other asset retirement costs that are expected to be incurred in the future. Additionally, you state these costs are not associated with an asset retirement obligation within the scope of ASC 410-20. We believe these removal and other asset retirement costs that you have charged in rates represent regulatory liabilities under ASC 980. Please amend your filing by reclassifying these expected future removal and asset retirement costs previously recorded as an element of accumulated depreciation to a regulatory liability.
